

Ohio Treasure Chest Of Technology Resources

Created and maintained by North Canton City Schools

- With **billions of web pages** in existence, how does an educator find web sites that are **high quality, educationally sound, and relevant** to what they teach?
- With **Academic Content Standards**, how do teachers find web resources that specifically **align** to and **support** their **indicators**?
- Furthermore, how does a teacher **share with others** an excellent resource he or she has discovered?

To help assist educators with these questions, the North Canton City School District has developed the **Ohio Treasure Chest of Technology Resources** at:

<http://www.ohiotreasurechest.org>

The Ohio Treasure Chest is an online collection of thousands of Internet resources that are **high-quality, teacher-reviewed, interactive, and free**. Each website is aligned directly to the Academic Content Standards in **math, science, language arts, and social studies**, and ready for use in your classroom.

Also, to help the Treasure Chest grow, each indicator has a link that allows any user to **suggest a new resource**. Your information is then sent to us, where we will review it, and then add it within the next few days.

We also offer an audio **podcast** every week that highlights excellent “Gems” from the Treasure Chest, along with technology integration ideas. The “Treasure Chest” podcast can be found on the site.

So, please take some time to **visit the Treasure Chest, find great resources, add some** of your own, and **provide us feedback** concerning how we can make this better. Information on how to contact me is listed below.

Sincerely,

Eric Curts, Technology Integration Specialist
